The whole performance has been the broadest kind of a farce on the par; of the Democrats, who are now sick of the position in which they have allowed themselves to be placed to gratify the inordinate vanity of young Wil-

"Will Come Here."

The above is the caption of a deepatch to the Commercial announcing that the firm of Morewood & Co., of Swansen, South Wales, propose to move their tin plate works to New Jersey. This sonoucement, which was received in the regular Associated Press report, only goes to show the difficulties under which free trade editor labors. Possibly no one provision in the McKinley tariff has been more persistently field about in the EATON'S CA. DY STORE. Hemocratic press than the the plate schedule. These strong sided champions of British manufacturers flist, greeted the tin plate duly with the cry that its only effect would be to increase the cost of the poor man's dinner pail. The prediction alled to materialize as The retail price of tip did not advance, while on the other hand as the result of the same bill the people consumed \$23,000,000 worth more sugar than in the previous year, the saving in that one item representing a good & . L J many dianer palls.

The unit cry was that the industry could not be successfully established in this country, and that in fact the only purpose of the act was to furnish a little campaign bluff for the Republicans. Again were the Democrats doomed to disappointment, hewever, as there are to-day twentysix factories in actual operation in this country while sixteen, more are now preparing to begin operations. In the next β scal year. These are statistics gathered by Special Agent, to whom nineteen manufactorers reported 2,721,429 pounds as their production for the third quarter piper the act went into effect. The estimated capacity of the forty-two that will be in operation for the next fis-cal year is no less than 243,000,000 pounds. This is a pretty good showing for an industry the establishment of which in this to be a noyth.

publish in shelr news columns the aunonneenent that the affect of the tin plate tariff, even in the short time it has been n operation, has been so disastrous to the foreign connufacturers that they are moving their plants to this country. The New Jersey will be about 5,000 plates a week. It is this grand vindination of the Mckinley (aniff all along the line that is now treating our Democratic friends. All of it is predictions have proved false. The prophe have had ample opportunity the Democratic campaign in 1890, and It goes mound begging for votes this

An Interesting Report. The report of the sub-committee of the Score Smance Committee, an abstract of

which appeared in the telegraphic colons of THE WHIG. Wedbesday morning, was interesting reading. The subject of investigation was the effect of the tariff laws on the trade relations between this country and Canada. The committee yishted various points and declare that or all hands in this country they found evidences of increased population, while on the other side of the line the population is decreasing. One item in the report will be of especial interest to our people lust now when the Democratic House is talking of adopting a bill placing lumber on

When the duty on imported horses was increased the price of horses fell in Canada. It was the same with eggs and barley. When the duty on pine lumber was reduced \$1 per 1,000 feet that amount was at orce generally added to the price of import in Canada, so that no advantage was derived by the United States from the reduction of the duty.

It will be seen from this how about is

It will be seen from this how absurd is the claim that free lumber would benefi the people. The report says that the difference in wages is from fifteen to fifty per cent, the average difference being twenty-five per cent. Give the Canadian markets and the men who work in the mills would have to accept a lower scale of wages, or the mills would have to sout down. In either case our people are

The Maine Delegation.

From the Waco News April 14. LONE STAR C)TTON PICKER.

An Enthusiastic Meeting of Stockholders and Citizens.

Reports of President E J Gurley and Secretary Seth Turner - Stock Increasing in Value - Machine Perfected - Resolutions Adopted.

A number of resident stockholders of the Lone Star Cotton-Picking Machine Co and others me last night in pursuance with the call of Col E J Gurley, president, at the burd of trade rooms, for the purpose of hearing the reports of the officers as to the financial condition of the company.

of the company
Col R B Parrott was elected chair Col R B Parrott was elected chair man and called the meeting to order Mr Seth Turner was then called upon, and addressed the assemblage at some length as to the progress being made, and expressed his perfect confidence in the machine in a short time being recognized as the greates invention of this or any other age. He compared the progress of the Lone Star Cotton Picker with that of the Marsh Farvester the McCormick reaper the Howe sewing machine, the Bell telephone and many other of the most important inventions we now the most important inventions we now have, and stowed donclusively that, in point of rapid progress, the Cotton Picker far exceeds them all Twenty seven years after the first reaper was made the machine was not as near per fect as the Lone Star Cotton Picker is today. In ventors of the most recording. fect as the Lone Star Cotton Picker is today Inventors of the most wonderful machines have been considered fools and cranks and have persevered under the most adverse creumstances till they succeeded. The history of Howe is worth relating. He managed to get hold of \$500 with which he built a machine and gave an exhibition or its work. He succeeded in sewing five seams quicker and better than five ladies could by hand, yet nobody would back him with money in one of his trips he had to leave his wife is clothing behint because he had not the money to pay his wash bill. Bell widded around Bosten all summer thir teen years ago wearing a fur trimmed hat because he could not sell telephone ock enough at six cents on the dollar to buy a seasonable one. He predicted from the phenomenal success already attained in such a stort time that the Cotton Picker stock would in a short time equilibration of the telephone. He said that the patients were all right about two hundred claims already having been secured in participation of the said that the patients were all right about two hundred claims already having been secured in participation of the said that the patients were all right about two hundred claims already having been secured in participation. We should profit by the experience of others and not put too many imperfect mach ness upon the market. Marsh Bros had built four hundred harvesters and by hard exertion were only able to keep nine of them in operation and after adding many improvements built only forty for the next season. There has been no machine in the history of the country that has made such rapid progress and with as great economy as the Lone Star Cottor. Picker, and the time will soon come when you will appreciate the work that has been done.

Col I. J. Gurley was next called upon and reported the financial condition of the fect as the Lone Star Collon a locker at today. Inventors of the most wonderful machines have been considered fools and

Col I. J Gurley was next called upon and reported the financial condition of the company to be first-class, giving the total amount of capital stock, the amount of cash realized by the sa e of stock in 1800, the amount subscribed in Waco and Chiigo the amount of stock still unsold and the value of real estate buildings, match nery etc in Waco. He expresses the firmest confidence in the success of the

er terprise
Dr. Brown next spoke enthusiastically
of the work of the machine as witnessed
by himself and Dr. bears. He said that
at picked the cotton cleaner and better at picked the cotton c eaner and better than the negroes at work in the same field. Mr James B Baker made a short speech, and was lavish in his praise of the work done by the riachine. He expressed himself as perfectly satisfied with the progress already made and was confident that Waco would be prouder of her Cotton. Ficker than any other business enterprise she has ever had. The machine made a record in the field last sea son never equalled by any other invention and there was no room for doubt of its perfect success.

Mr J D. Shaw stated that he had been approached by a certain banker in this

approached by a certain banker in this city who desired to purchase his stock at a small price but that he informed him that he stock was worth one hundred cents on the dollar.

Upon motion a committee of four were appropriet to draft resolutions.

appointed to draft resolutions of indorse-A recess of ten minutes was then taken,

after which the following was reported

To the meeting of stockholders and
cit can held at the rooms of the Waco
Board of Trade

Board of Trade

The undersigned a committee appoint
ed by your bonorable body to express the
sense of this meeting as to the character
and standing of the gentlemen now in
charge of the interest of the Lone Star
Cotton Picker Co take pleasure in stat
ing that we have been personally ac
quainted with Col E J Gurley, the presi
dent of said company and Dr. J. H. Sears,
one of the largest stockholders, for many
years, and recommend the passage of the years, and recommend the passage of the following resolution

Resolved, that we, the citizens of Wacobreth, and charactelling

Resolved, that we, the citizens of Waco hereby cordully and cheerfully recommend and indorse Col E J Gurley and Dr J H Sears and the other officers of said company as gentlemen of the highest standing and integrity, and believe that they are entitled to, and should receive, the fullest confidence of all with whom they may deal in matters concerning the Lone Star Cotton Picker or any other business transactions, that they are clean handed and upright and will not knowing ly deceive or be parties to any insergiresentations as to the matters and facts concerning the condition and management of the interests of said concern or of the materies of said concern or of the materies

the interests of said concern or of the machine riself

We, your committee, having witnessed the operation of the Lone Star Cotton-Picking Machine in a field of cotton, where the average hands of our country were picking and had picked a number of rows of cotton, feel abuncantly satisfied with the operation of the Cotton Picker as a grand success, picking out the staple in much less time, in better condition, and securing a larger per cent of the lint.

We furthermore state that our confidence in the ultimate and perfect success of the Lone Star Cotton Picker is an established fact, and hereby repeat the resolution of the Board of Trade passed in December, 1891

A Feeling That is too Common in the Merry Month of Mat.

REV. MR. ARREY PRLY OLD.

In the spring there is. If e doctors say, almost a universal tendency to languid,

depressed feelings. And they say "it is natural' The nerves are weak, the blood impure, and the general health out of order

Roy P C Abbey, a well-known prencher of Barre, Vt.-ia no exception to this rule. A correspondent of the Boston Journal quotes him as saying.

I was feeling very much debilitated, with thet languid feeling such as comes from overwork, that is, I felt old I rived Palicy celers, compound and resided to the state of the same of the tried Paine's celery compound, and was soon relieved from that worn out feeling Since then I always use it at the change

results

Rev Mr Abbey's experience is but one of many He voices the universal opinion in regard to this compound, the best spring medicine in the world. It is not a sursaparilla, bitters, or nervine. It is a scientific discovery the most heneficial spring regulator ever known. Pare blood, strong nerves, and clear brain, come to its users.

SPECIAL ANNOU CEMENTA

The Whig and Courier for the Coming Campaign.

Fifty Cents a Month during the residential Contest.

The Only Republican Daily in

Eastern Maine.

This is to be an important year poll i cally. Questions of grave moment to the people are to be discussed in the ness and upon the stump, weighed in the public mind and settled at the polls in the fall. The newspaper is the best possible medium through which the people can keep themselves in touch with the drift of current events The Chairma a of the Republican Na-

tional Committee has urged upon the people the great importance of giving the widest circulation to the Republican papers In order to carry out the idea of getting a Republican daily paper in the hands of the greatest number of people, THE WHIC proposes to issue a campaign edition Heretofore the offer has been delayed till later in the season, but as the campaign will open early this year, the National Convention meeting in Minneapolis the first of June, we make the fo lowing offer now THE WHIG AND COURIER WILL BE I

MAILED TO FACE NEW SUBSCRIBER IN ANY PART OF THE STATE, LOSTAGE PAID, FOR FIFTY CENTS A MONTH FROM NOW UNTIL LAIGN IN NOVEMBER, LAVABLE STRICTLY IN All LANCE Beginning with May and in
